CANAL+ GROUP RENEWS PREMIER LEAGUE RIGHTS UNTIL 2028 IN FRANCE, SWITZERLAND, CZECH REPUBLIC, SLOVAKIA, AND VIETNAM

© Icon Sport

The Premier League, more than ever the most competitive national championship in the world, will remain on CANAL+ for 5 further seasons.

Haaland, Salah, De Bruyne, Saka, Son, Rashford, Bernardo Silva, Jesus, Ødegaard, Sterling, Alexander-Arnold, Varane, Nkunku, Konaté... The most popular, most iconic national championship, with its stars, legendary clubs and action-packed derbies. Winner of the first UEFA Champions League in its history in 2022/2023 after a magnificent season in which it also won the Premier League and the FA Cup, Manchester City will have to defend its national title against its fierce competitors in recent seasons such as Liverpool, Chelsea and Tottenham, but also facing the rise of Newcastle and the forceful return of historic clubs as Manchester United and Arsenal.

CANAL+ is proud to have renewed the rights to the Premier League in full, i.e. 380 matches per season. In France, all these matches can be followed exclusively on the CANAL+ channels as well as on myCANAL, and in particular the digital channel CANAL+ PREMIER LEAGUE.

This renewal concerns France as well as Switzerland (French language only), Czech Republic, Slovakia and Vietnam on an exclusive basis, key territories for the Group where the Premier League is a leading competition.

Maxime Saada, Chairman and CEO of CANAL+ Group: *"We are delighted to have acquired the exclusive broadcast rights to the Premier League for several key regions of the Group. Above all, it is a source of great pleasure for our subscribers, who unanimously recognise the Premier League as the most competitive championship in Europe, with the best clubs and players on the planet involved. This would not have been possible without the exemplary work of our teams, whose great professionalism I applaud."*

Jacques du Puy, CEO of CANAL+ International : *"The Premier League has been a strong pillar of our broadcasting strategy in Vietnam and Switzerland for more than 10 years and has been launched recently in Czech Republic and Slovakia where it has been already widely praised by our customers. We are therefore very happy to continue entertaining our subscribers with coverage of this exceptional competition".*

Paul Molnar, Chief Media Officer at the Premier League: *"The Premier League is delighted to extend our longstanding partnership with Canal + until the end of the 2027/28 season. Canal+ is an outstanding partner and has continued to deliver market-leading and innovative coverage across its established and new digital platforms. We look forward to Canal+ continuing to be the home of the Premier League across these important territories."*
